

ISOFRANC NYLPECHE APRON- Crossed straps

Apron providing front and side protection. The ISOLATECH technique controls condensation on the ventral area. X-shaped braces for better comfort. Adjustment strap at the waist. Variant of the old TBR apron with X-shaped straps and ISOLATECH reinforcements. No welded hems at the edge of the apron, making it more hygienic for certain activities requiring this.

Fabrics : Nylpeche

Nylpêche fabric: Very hard-wearing. The technical characteristics of the Nylpêche fabric provide completely waterproof garments second to none for their strength and flexibility. PVC coating on two sides, easy to clean. Ideal for intensive and even “extremely tough conditions”. 485 g/m².

Colors : WHITE, BLUE

Sizes : S, M, L,
