

DREMFARM breathable JACKET Hybridpro+

A REVOLUTIONARY article on the work clothing market: The DREMFARM JACKET. The DREMFARM jacket combines very technical fabrics worn by trans-oceanic skippers, with our historical know-how in protective clothing for outdoor activities. Truly an INNOVATION, this jacket brings newfound comfort to the work environment. The upper part of the jacket is made from the highly technical breathable DREMTECH + fabric. This is a high-tech breathable, comfortable, tough fabric. Made of 4 layers in all The parts of the DREMFARM jacket used most are made of CAP COZ fabric since it has an excellent flexibility to toughness ratio thanks to its thick coating. Moreover, it still has all the qualities and technical details that have contributed to the reputation of the brand in professional circles, such as toughness, and suitability for work. A distillation of more than 45 years of experience and our innovative spirit, the DREMFARM jacket will probably become the best professional clothing on the market. This is because we have crossed a new comfort threshold for work clothing in the most difficult conditions.

Fabrics : Dremtech+

Dremtech +: This is a high-tech, breathable, comfortable and tough fabric. Tough "4 layer" fabric for great durability and comfort. Cap-Coz fabric: durability and comfortable inner jersey. Excellent toughness and flexibility ratio thanks to the quality of the plasticizers used in the thick coating on one side. Interior textile pleasant to the touch. 480g/m²
